IS schedule

The following is the proposed schedule for the C++29 IS.

2026.2 – Brno	First meeting of C++29
2026.3 – Búzios	<i>Try to front-load “big” language features including ones with broad library impact</i> <i>(incl. try to merge TSes here)</i>
2027.1 – tbd	
2027.2 – tbd	
2027.3 – tbd	<i>EWG: Last meeting for new C++29 language proposals we haven’t seen before</i> <i>EWG → LEWG: Last meeting to approve C++29 features needing library response</i> <i>LEWG: Focus on progressing papers on how to react to new language features</i>
2028.1 – Kona	<i>* → CWG,LWG: Last meeting to send proposals to wording review (incl. TS merges)</i> C++29 design is feature-complete
2028.2 – tbd	CWG+LWG: Complete CD wording EWG+LEWG: Working on C++29 features + CWG/LWG design clarification questions C++29 draft wording is feature complete, start CD ballot
2028.3 – tbd	CD ballot comment resolution
2029.1 – tbd	CD ballot comment resolution C++29 technically finalized, start DIS ballot
